Kodiak Mountain Series

Which sauce are you going to bring? Whether you mustard your way up or hot sauce your way down, we recommend both sauces for this 3-day stage race. But don't let these shorter routes fool you—you'll need every ounce of grit (and maybe a trusty pair of purple tights) to tackle our steep single-track trails. With jaw-dropping views of surrounding peaks and the chance to spot a whale spouting below, we bring fun, alternative approaches to our favorite local mountains with the Kodiak Mountain Series.

Results are as follows:

There are 3 races over 3 days. Results are determined by adding up each participant's times from all three races—the lowest total time wins in the Men's, Women's, and Teams categories, with no age divisions. Additionally, we will have a King of the Mountain (KOM) award for each race to recognize the fastest ascent to the top of each course, with no divisions.
