Let horse & rider know you are there. By talking to the rider, it can settle the horse.

Never pass a horse without talking to rider first. Horses can kick if startled

Always wait on rider to take horse off trail before passing or going around horse.

By sharing the trail, EVERYONE has a safe and GREAT time!

Devoted equestrians
committed to preserving
access to Public Lands with
education and
encouragement of
responsible stewardship

Thank you!

Please keep equestrian users in mind for trail use.
