

PUBLIC NOTICE

Alaska Trails, a non-profit organization dedicated to improving trails throughout Alaska, intends to apply for a grant from the Recreational Trails Program (RTP) to complete Phase II of the Little O'Malley Peak Trail in 2021. Phase II will complete work begun in 2020 to provide a sustainable and easier-to-use access to the "Ball Field" at the top of the O'Malley gully. This trail re-route was undertaken to replace the current network of eroded and treacherous routes with one well-designed trail that provides a gradual ascent of the O'Malley gully.

For more information or to comment on this proposed trail project,
